Lithuania. Co-create Experiences

Etymology:

The oldest language still spoken in the world - Lithuanian

- from Proto-Slavic *gǫdъ „snake, reptile”
- from Proto-Germanic *snakô “snake” > Proto-Germanic *snakaną “to crawl, to creep”
- from Proto-Germanic *slangô “snake”
- from Proto-Celtic *natir “snake”
- from ard („high”) + nieu („poison”)
- from Proto-Slavic *zmbja „snake”
- related to the verb čukstēt “to whisper, to hiss”, imitating a snake’s hissing
- from Ancient Greek ὄφις, óphis > Proto-Indo-European *h₁óg^{whis} “snake, dragon”
- from Middle-Persian mār “snake”
- from Proto-Kartvelian *gwe/- “snake”
- from Proto-Balto-Slavic *kirmis “worm”
- from Proto-Finnic *mato “worm”
- from Proto-Uralic *kije “snake”
- from Proto-Germanic *wurmiz “worm”
- from Proto-Turkic *jılan “snake”
- from Proto-Indo-European *serp “to crawl”:
 - from Latin serpens “snake”
 - from the verb serpō “to crawl”
 - from Proto-Albanian *serpena “snake”
 - from Proto-Indo-European *h₂éng^{whis} “snake”:
 - from Proto-Slavic *ožb “snake” >
 - Proto-Balto-Slavic *angj(a)s “snake”

Science for Policy (S4P) concept

- The development of policy advice based on research.
- Linking policy and research is not an easy task. Researchers and policymakers operate in **different worlds**, often speak **different languages** and have very **different timetables**.
- Their relationship requires more **contact**, **cooperation** and **co-creation**: science and policy separation prevents us from solving complex problems.
- Terminology: „Science for Policy“, „Evidence-based Policy Making“, „Evidence-informed Policy Making“

The role of S4P in Europe

Science for Policy in Europe plays a crucial role in **shaping effective governance and addressing societal challenges**.

Here are some key points highlighting its significance:

- ✓ Informed Decision-Making;
- ✓ Addressing Grand Challenges;
- ✓ Public Trust and Engagement;
- ✓ Sustainable Development;
- ✓ Crisis Management;
- ✓ Cross-Border Collaboration;
- ✓ Innovation and Economic Growth.

S4P is vital for **creating effective, sustainable, and inclusive solutions in Europe**, directly impacting various sectors, from health and environment to economy and education.

What way to choose?

Jungtinė Karalystė

1 Vyriausiasis mokslo patarėjas
vyriausybėje

Mokslo patarėjai: 15
departamentuose; 8 kitose
valstybės institucijose; 1
vyriausiasis pasiuntinys mokslo
tarptautiškumo klausimais

Airija

1 Vyriausiasis mokslo
patarėjas vyriausybėje
(+ Airijos mokslo fondo
generalinis direktorius)

Estija

14 mokslo patarėjų
ministerijose ir 1
Vyriausybės
kanceliarijoje

Nyderlandai

5–11 asmenų
Vyriausybės politikos
mokslo taryba (+ 28
asm. biuras)

Izraelis

14 (kiekvienoje
ministerijoje po biurą ar
atstovą)
(+forumas)

Australija

1 Vyriausiasis
mokslininkas
vyriausybėje (+ biuras)

Naujoji Zelandija

1 Vyriausiasis ministro
pirmininko mokslo
patarėjas (+ jo biuras) +
vyriausiųjų mokslo
patarėjų forumas (19
narių)

Indija

1 Vyriausiasis mokslo
patarėjas vyriausybėje
(+ biuras)

Kanada

1 Vyriausiasis mokslo patarėjas
vyriausybėje (+ biuras)

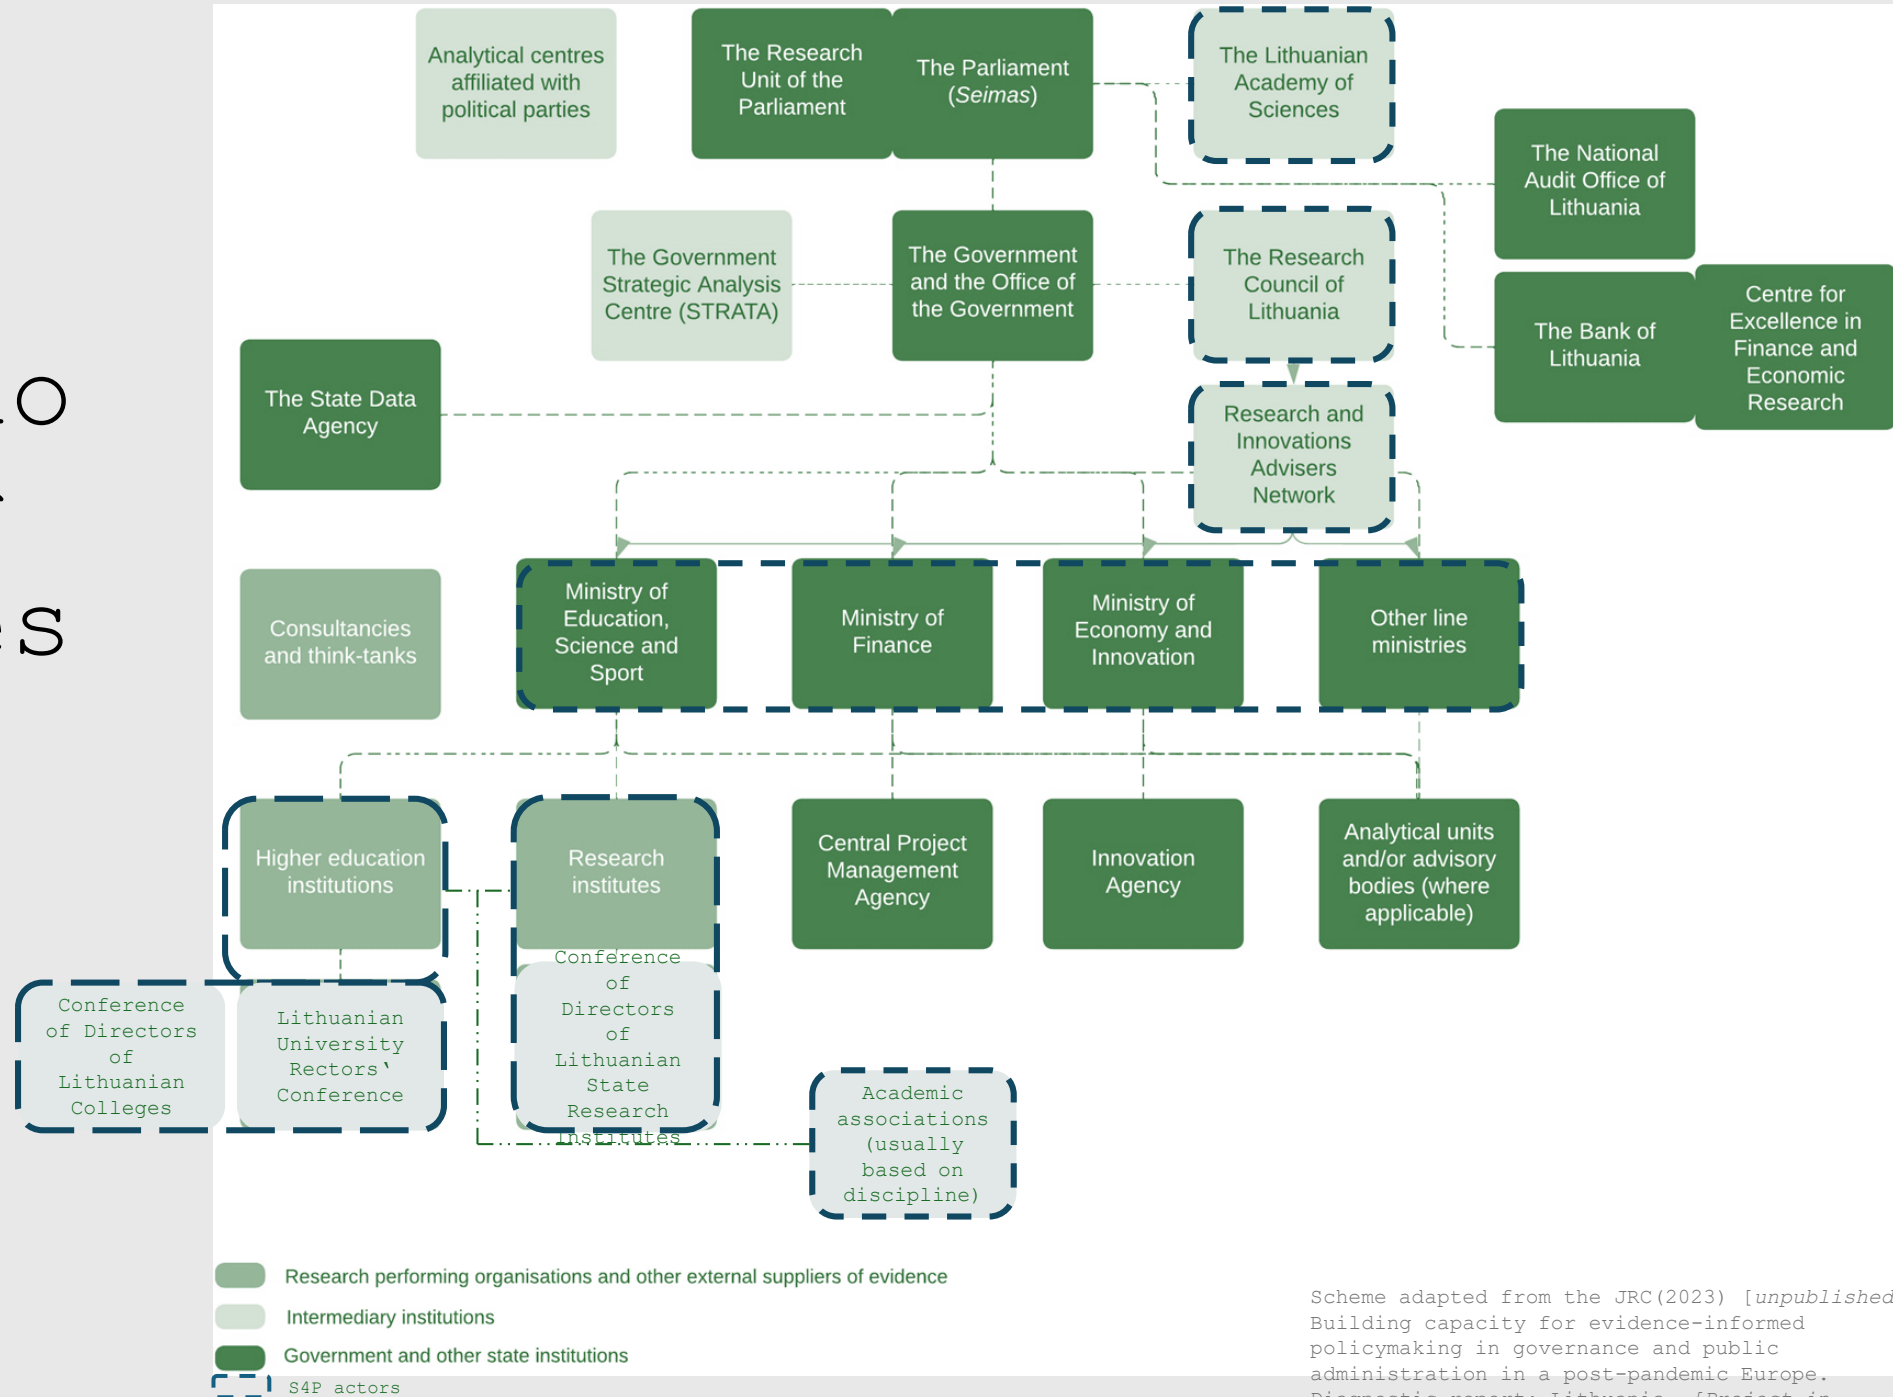

Europos Komisija

7 Vyriausiųjų mokslo
patarėjų tinklas EK

** - 2018 m. VMP iniciatyva pradėtas steigti
mokslo patarėjų tinklas: pareigybės buvo
pradėtos steigti tokiose institucijose kaip
Kanados Kosmoso Agentūra (Canadian
Space Agency) ar Nacionalinėje mokslo
taryboje (National Research Council).*

Status quo and major challenges

Pilot project: Science and Innovation Advisers at the Sectoral Ministries and the Office of the Government

Funding source: NextGenerationEU Plan for Lithuania
(RRF)

Duration: 2023–2026 (4 years)

Budget: 3 million EUR

Objective: 15 established positions in each
sectoral ministry and the Office of the Government

Coordinating institution: Research Council of
Lithuania

Goal: The project aims to create a Science and
Innovation Adviser position in ministries and
Government Office. Also create a network, which
shape science based decision making culture in the
public sector and to strength cooperation between
science and public sector.

Network collaboration

15 advisers +
supervisor

Individual work in institution

14 ministries and
Government Office

the network is fully formed in April 2024

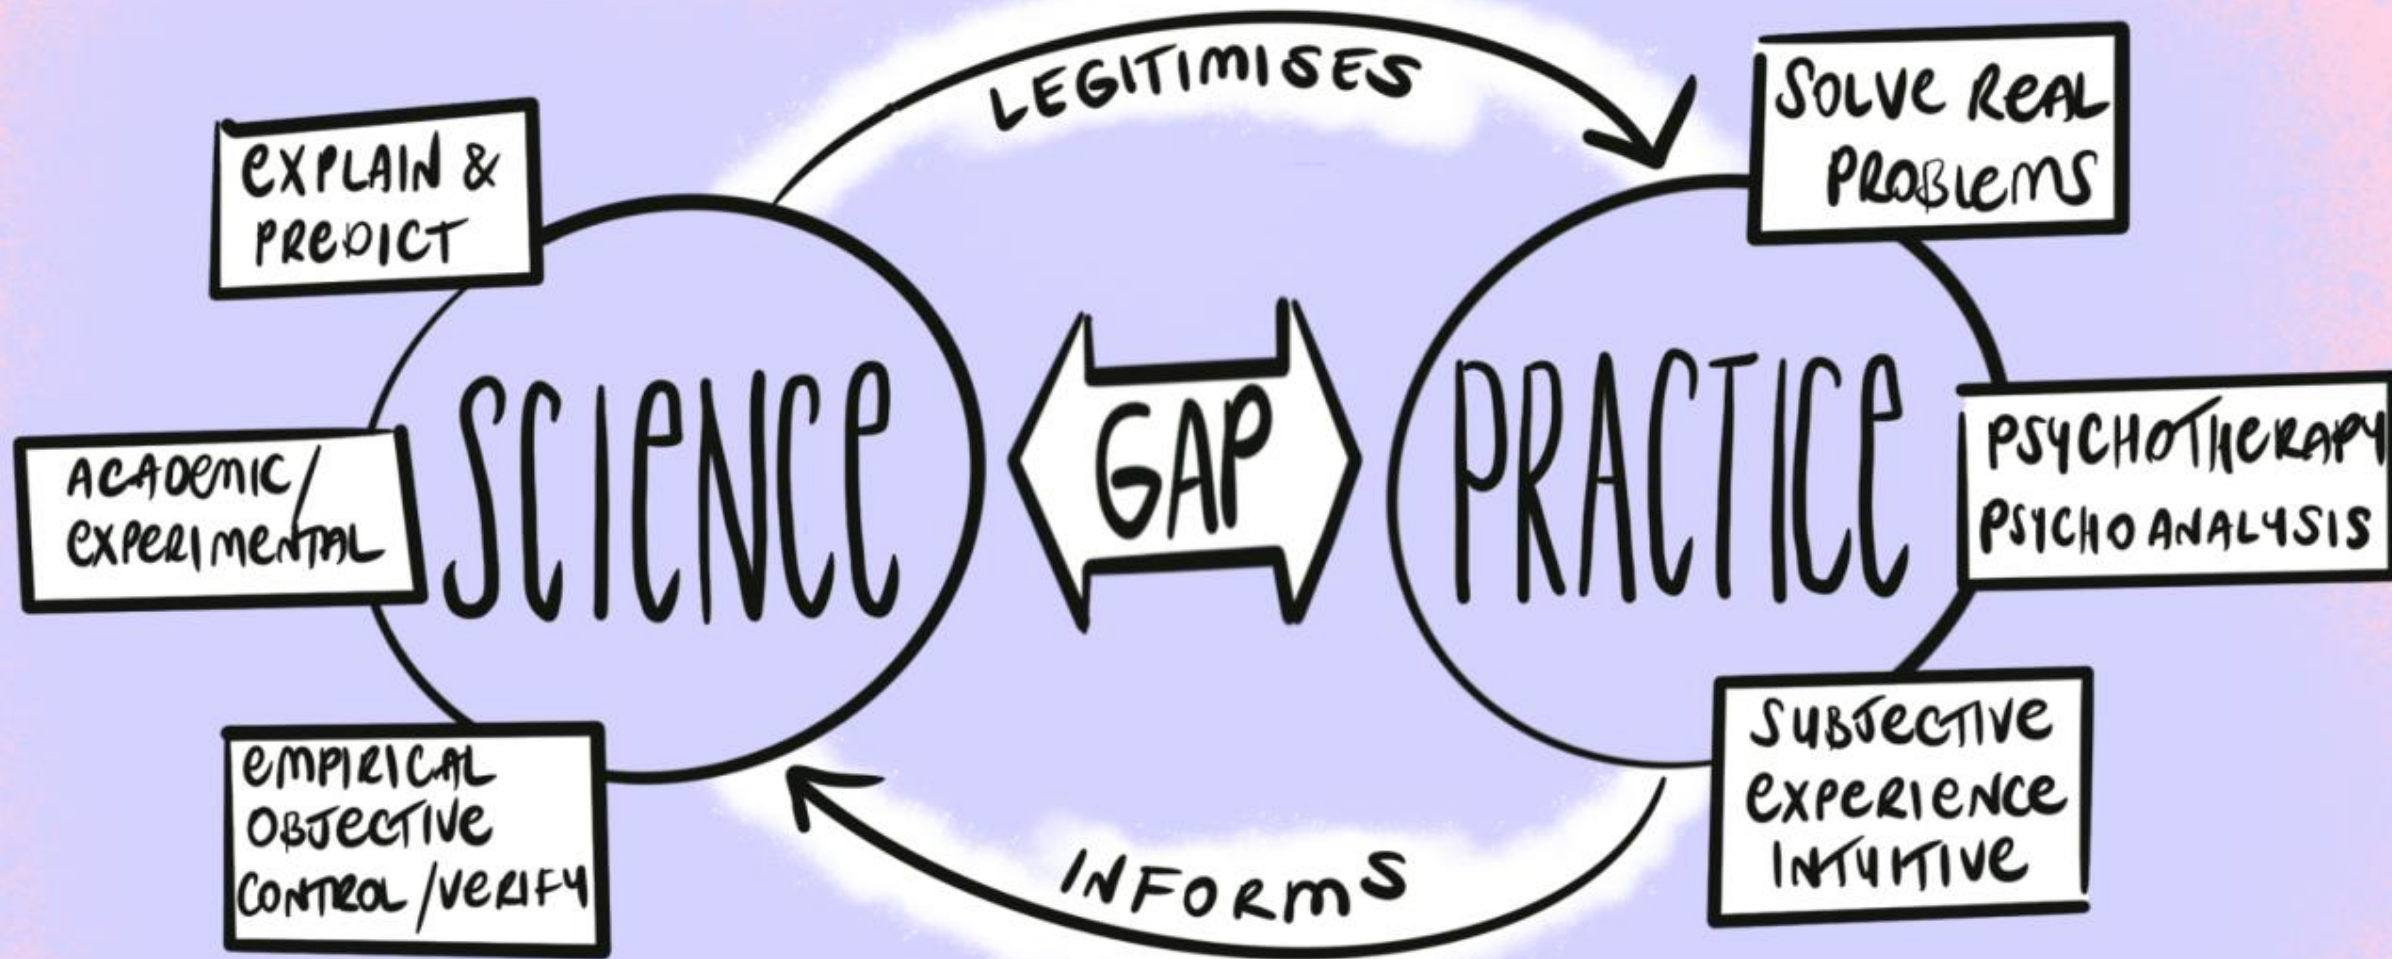

2004

Differences of the life-style (scientists versus practitioners)

- **Knowledge:** generation / usage
- **Topics:** field of interest / current need
- **Methods:** many and different (scientific) / some and fast-going
- **Time constrains:** particular period / daily basis
- **Decision:** considerations and evidences / intuition and information
- **Axis of the decision:** groups / individuals
- **Sustainability:** long-term input / changing issues
- **Scale of damage:** individual, unit or institutional reputation / trust of society in institutions and government

Four Evidence Informed Policy making strategies

Previous collaboration examples (1)

- ✓ **Creation of anti-corruption environment in municipalities.**
- ✓ **Preconditions:** requirement of the law.
- ✓ **Coordinators** – municipal administrations (Šiauliai City, Šiauliai District, Radviliškis District, etc.)
- ✓ **Methods:** separate surveys of citizens and administration, documents content analysis.
- ✓ **Outcomes:** report, recommendations.
- ✓ **Challenges:** access to participants, report presentation, financial issues, time limits.

Previous collaboration examples (2)

- ✓ The project "**E-leadership in municipal administrations: the post-pandemic analysis (E-LEADER)**". The project of the Baltic-German University Liaison Office is supported by the German Academic Exchange Service (DAAD) with funds from the Foreign Office of the Federal Republic Germany.
- ✓ **Coordinator** – Vilnius University.
- ✓ **Methods**: literature analysis, focus groups.
- ✓ **Outcomes**: report, public lecture, video for social media, scientific presentations and articles.
- ✓ **Challenges**: to get access to participants – leaders and employees of municipal administrations, to convince them to take a part in it, to organize time/place, dissemination (involvement of targeted group).

Future of S4P

Roles of governmental bodies

- Users of scientific knowledge (projects, recommendations)
- Customers of applied research topics
- Participants of scientific research
- Partners in Europe Horizon projects

Roles of scientists

- ...
 - Evidence providers
 - Consultants, members of working groups
 - Consultants
 - ...

Discussion

From the point of view of scientist:

- Do researchers feel the need to work on topics of national interest?
- How are institutes or universities responding to the public demand?
- Motivation system, encouraging researchers to serve the needs of society and the public sector?
- How can we ensure continuity and sustainability of ecosystem under conditions of uncertainty?

About RENET

- **RESEARCHERS ' EXCELLENCE NETWORK (RENET)**
- The international network was initiated in the end of 2015 by **Šiauliai University** and now it is coordinated by **Šiauliai Academy of Vilnius University, Lithuania.**

RENET aim

Šiaulių
akademija

- ***The aim of the Network*** is to consolidate the research capacity which could help to develop scientific excellence of researchers and would enable to collaborate across disciplines and institutions at local, national and international levels.
- The joint activities of the network has two main **functions**:
 - 1) Joint thematic networking discussions (seminars, lectures, conferences, pre-conferences, doctoral seminars, e-forums, etc.) by distance. All events will be recorded and publicized in the Network's website;
 - 2) Researchers' mobility and competence exchange.
- ***Šiauliai Academy of Vilnius University*** (as the initiator and the coordinator of RENET) has long-term experience in four areas of doctoral studies: education, philology, economics and management. Research is carried out in 6 areas (social sciences, humanities, biomedical sciences, physical sciences, technological sciences and arts) in Šiauliai Academy. We are open to cooperate in all of them.

Activities of RENET

1. Open seminars,
2. Open lectures,
3. International conferences,
pre-conferences,
4. Doctoral seminars,
5. E-forums,
6. Videos of events.

1. Publishing possibilities,
2. Project possibilities,
3. Invitations to conferences,
4. Employment possibilities,
5. Editorial boards' possibilities,
6. Networking (internships, visits,
research teams, etc.)

Information about it in the RENET webpage:

<https://atviri.emokymai.vu.lt/course/view.php?id=126>

Videos of RENET events: Youtube channel RENET Vilnius University, Šiauliai Academy <https://youtube.com/@renetvilniusuniversitysiau2425>

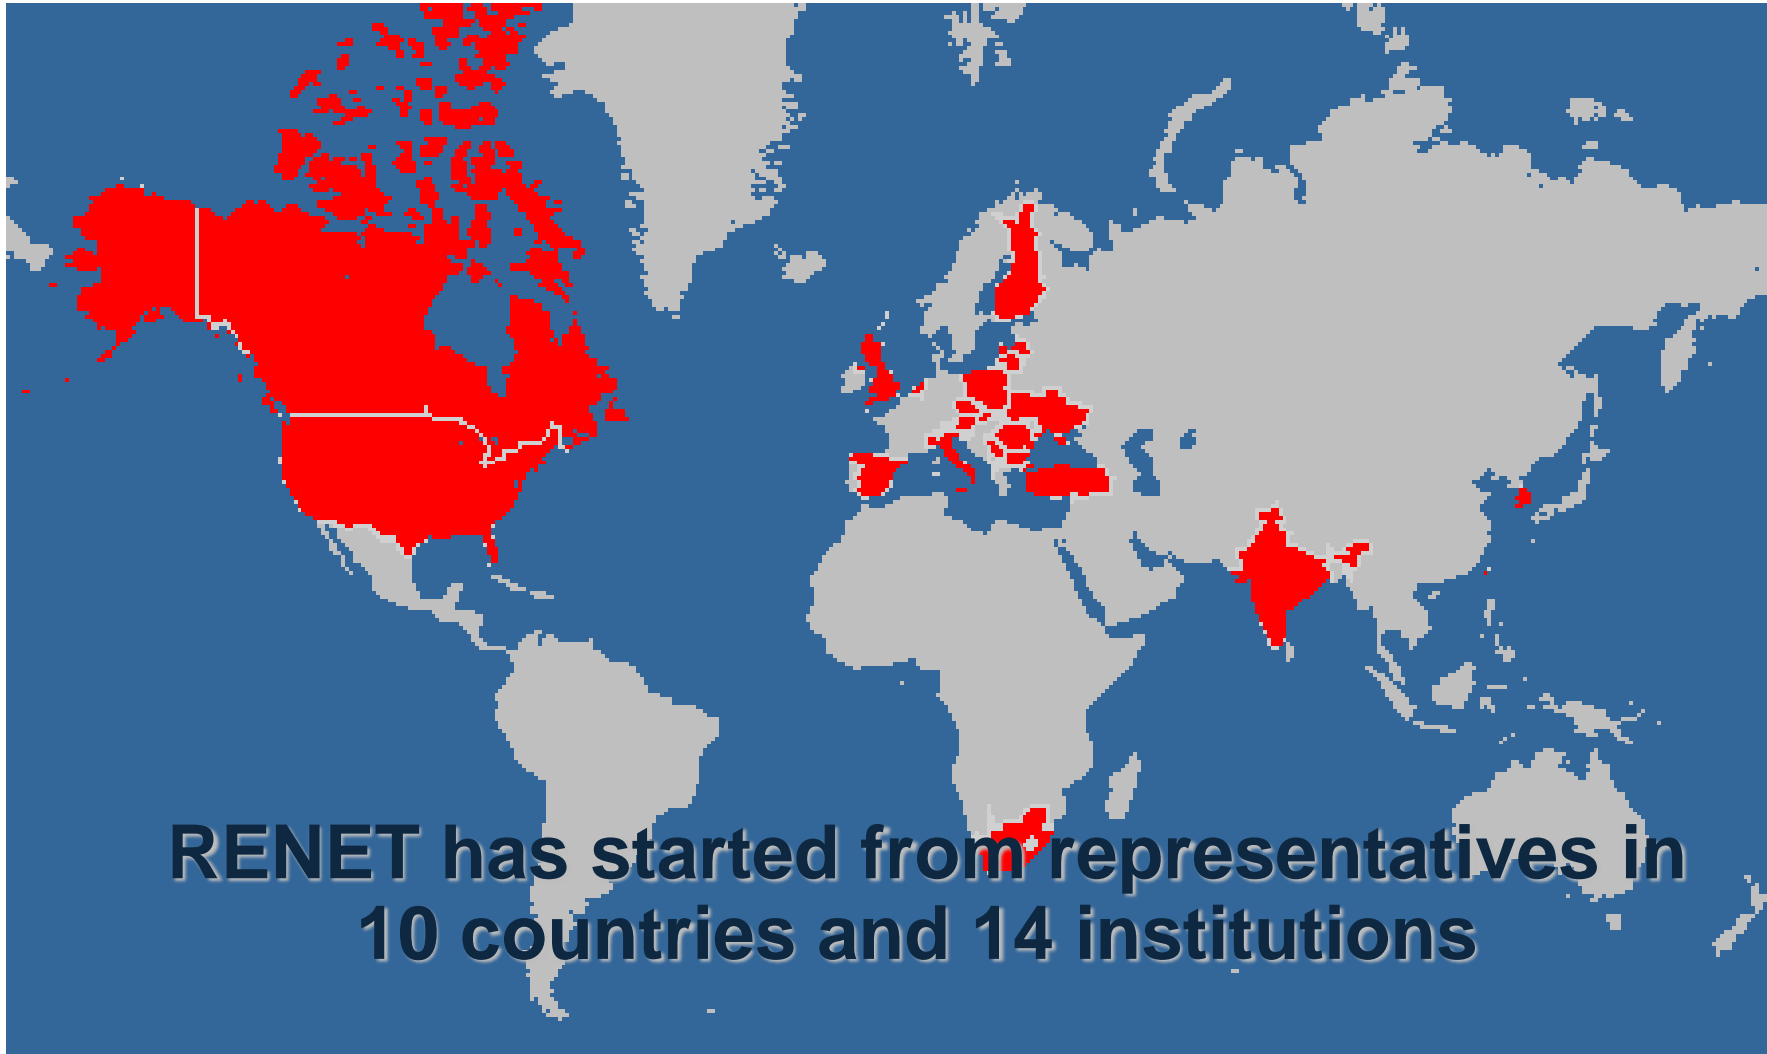

Members of RENET represent

27 countries, **55** institutions

Šiaulių
akademija

Benefits of RENET membership

Šiaulių
akademija

- ✓ Sharing of ideas, insights and expertise during events.
- ✓ Possibility to save time and resources and to be the part of international scientific events.
- ✓ Possibilities for internships, common projects' applications, trainings.
- ✓ Information about publishing possibilities and membership in editorial board.
- ✓ Networking, partnership, friendship.

- How to apply for the membership:
- Application form (individual, institutional)
- <https://atviri.emokymai.vu.lt/course/view.php?id=126>
